EDUCATION

Chitkara University

B.E. Computer Science — CGPA: 8.73

Rajpura, Punjab

2023 – Present

Delhi Public School, Kaithal

Class XII (CBSE) – 79.2%

Kaithal, Haryana

2023

Delhi Public School, Kaithal

Class X (CBSE) – 90%

Kaithal, Haryana

2021

PROJECTS

DoodleSync – Real-time Collaborative Whiteboard | React, Tldraw, Socket.IO, Tailwind, Express, MongoDB

- Designed a real-time collaborative whiteboard using WebSockets with conflict-aware synchronization to maintain consistency across 100+ concurrent user sessions.
- Optimized event propagation through batching and efficient state synchronization, reducing collaboration latency by 30%.

Dreamscape – AI Travel Copilot | React, Node.js, Tailwind CSS, OpenAI GPT-4, WebGL

- Built a conversational AI trip-planning architecture with a persistent contextual chat interface, leveraging OpenAI's GPT-4 to dynamically generate highly personalized, structured JSON itineraries based on granular user preferences.
- Developed a scalable full-stack application featuring an interactive 3D globe (WebGL), real-time modular UI state management, and a centralized dashboard for generating, saving, and managing AI travel plans and connections.

Tab Snoozer Pro – Intelligent Chrome Extension | JavaScript, Chrome Extension APIs, HTML, CSS

- Built a Manifest V3 Chrome extension that automatically snoozes inactive tabs using configurable inactivity rules, adaptive timing, and safe-tab checks.
- Implemented session snapshot and restore, productivity analytics, notifications, and settings synchronization using Chrome Storage and background service workers.

OasisReserve – Hospitality Management SaaS | React, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a responsive hospitality management platform for handling customers, reservations, services, staff, dashboards, and operational reports.
- Implemented REST APIs with role-based access control, JWT authentication, protected routes, and MongoDB-backed data management.

EXPERIENCE

Technical Member — Open Source Chandigarh

June 2024-25

Open Source Community

Chandigarh, India

- Collaborated through GitHub pull requests, issue tracking, and code reviews in a team-based development workflow.
- Debugged production-level issues and optimized application performance across multiple repositories.
- Contributed to feature discussions, API integration, and reusable component development.

TECHNICAL SKILLS

Programming Languages: JavaScript, HTML, CSS, SQL, Java, Python, Linux

Backend & APIs: Node.js, Express.js, REST APIs, WebSockets

Databases: MySQL, MongoDB, PostgreSQL

Cloud Platforms: AWS (EC2, S3, IAM, VPC, CloudWatch)

DevOps & Infrastructure: Linux, Docker, Git, GitHub

CERTIFICATIONS

Microsoft – SQL Foundations (2026)

Microsoft – Data Manipulation and Transactions in SQL Server (2026)

ThingQbator – NASSCOM Foundation – Full Stack Development with MERN

Cisco Networking Academy – Introduction to Modern AI
